What is Ag-Ed?

- An agricultural education experience for children in years 5 & 6
- Younger grades are always welcome to attend. These grades are the responsibility of the Teachers and carers.
- It involves students attending interactive agricultural sessions with industry representatives, experts and Primary Producers.
- Ag-Ed supports the classroom teacher through the provision of a Teacher Resource Package containing information and student activities representing a variety of agricultural industries, if requested.

Why Ag-Ed?

- The aim of Ag-Ed is to provide both city and country children with knowledge and understanding of the impact and relevance the agricultural industry has on their everyday lives.
- It provides children with a “classroom without walls” experience of the paddock to product processes of a variety of industries, as well as the sustainability issues that support them.
- Experiencing Ag-Ed enables children to appreciate the co-dependence of urban and rural communities.
